

ALEX RIVERA

Senior Full Stack & AI Software Engineer | San Francisco, CA | alex.rivera@example.com | github.com/alexrivera

SUMMARY

Versatile Software Engineer with 5+ years of experience designing and scaling distributed systems, modern web applications, and AI/ML solutions.

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, TypeScript, SQL, Go
- Web & Frontend: React, Next.js, Redux, HTML5, CSS3, Tailwind CSS, REST APIs, GraphQL
- Backend & Frameworks: FastAPI, Django, Node.js, Express, Microservices
- Databases & Storage: PostgreSQL, Redis, MongoDB, SQLAlchemy
- Cloud & DevOps: Docker, Kubernetes, AWS (S3, EC2, Lambda), CI/CD (GitHub Actions), Git
- AI & Data Science: PyTorch, Scikit-learn, Pandas, NumPy, NLP, Prompt Engineering

PROFESSIONAL EXPERIENCE

Senior Full Stack Engineer | NovaTech Solutions | 2022 - Present

- Architected high-throughput RESTful microservices using FastAPI, Python, and PostgreSQL, reducing API p99 latency by 30%.
- Built responsive client dashboard using React, TypeScript, and Tailwind CSS, serving 120,000+ monthly active users.
- Automated deployment workflows using Docker, GitHub Actions, and AWS ECS with zero-downtime rolling updates.
- Integrated OpenAI and LangChain pipelines for automated document summarization and semantic search.

Software Engineer | Apex Cloud Labs | 2020 - 2022

- Developed scalable backend services in Node.js and Python for multi-tenant data ingestion.
- Optimized PostgreSQL queries and caching strategies with Redis, improving database throughput by 45%.
- Implemented automated test suites using PyTest and Jest, maintaining 92% test coverage.

EDUCATION & CERTIFICATIONS

- B.S. in Computer Science | University of California, Berkeley | 2016 - 2020
- AWS Certified Solutions Architect - Associate
